

### **NEW - DJI Inspire Drone/Aerial Service**

nickturner, Friday 11 September 2015 - 10:15:53

TShed can now provide a complete drone aerial kit and crew service with our own BNUC-s qualified remote pilot Nick Turner. Using the compact and lightweight DJI Inspire 1 filming platform we can now provide a full aerial filming package including kit, remote pilot and camera operators (if required), full public liability cover, equipment insurance and a full UK CAA Permission for Aerial Work. Pre site surveys and risk assessments are provided as part of this service. The system will soon be upgraded to the newly announced X5R camera offering lossless cine quality footage. Contact us for further information or to discuss your requirements.
